

Bottle Samplers - for use with LPA2 and CML2 Contamination Monitoring Products

BSLPA & BS500

The 110ml & 500ml bottle samplers are suitable for off line and laboratory applications where fluid sampling at point of use is inaccessible or impractical. A fluid de-aeration facility comes as standard.

Features & Benefits

- ◆ Vacuum feature for de-aeration of fluids
- ◆ Compatible with all portable MP Filtri Contamination Monitoring Products
- ◆ Strong Laboratory aesthetic
- ◆ Transparent outer for visual indication
- ◆ Full accessories kit included
- ◆ Includes carry case (BSLPA)
- ◆ Contact MP Filtri for use with fluids other than those stated

BS500

Mineral oil/water based and Offshore fluids or phosphate ester version.

BSLPA (mineral use only)
