

# ACCESSORIES

The range of products is completed by a number of accessories, including:

**Foot brackets**, which serve to support the motor-and-pump unit in the event that the selected electric motor does not have mounting feet.

**Damping rings**, intended mainly for use with motor-pump units positioned vertically and with the pump submerged in the oil tank.

**Inspection covers**, facilitating the maintenance of oil tanks in hydraulic power units, without necessarily having to dismantle the unit.

**Aluminium tanks** of 10 litres capacity, allowing the assembly of a compact hydraulic power unit.
